## COUNTRY INFORMATION

The world's highest mountain range defines everything there is about Nepal, a landlocked country lying between India to the south, and China and Tibet to the north. It's topography and weather, its religion and trade, all arise from its location amongst the grandest mountains you'll ever see. And while Nepal's rich melting pot of culture and tradition, with mystical Indian Hinduism and Tibetan Buddhism making up the fabric of the society, will draw you in with amazement and awe, it's the famous peaks and the superb trekking staff that will impress you with memories you'll never forget.

# EVEREST BASE CAMP WITH GOKYO LAKE TREK

## CLIMATE

Nepal has five seasons: spring, summer, monsoon, autumn and winter. In the mountainous regions where we trek, you can expect temperate summer temperatures and winter temperatures that can plummet below freezing. There is no seasonal constraint on trekking in Nepal, however the best time to visit is March/April (spring) when the rhododendrons bloom, and September to mid-December, when monsoon has cleared and skies are clearest.

## A TYPICAL DAY

A typical day on this trek will involve waking early to a warm, fuelling breakfast with a hot tea or coffee, provided by our teahouse guests. Of course, the meal is of your choice, ordered the evening before. Make sure your bags are packed and ready to go, as our porters will be keen to head off early, before you've even finished your meal! You'll then set out for a day of trekking through sublime, mountain terrain. Each day varies, but you can expect to walk 4 to 8 hours a day. We will stop for lunch at a teahouse along the way, giving you a chance to drop your pack, put your feet up, and have a rest while you nourish and refuel your body with a delicious, warm meal. Some days our lunch place will also be our overnight camp, but on most days we will set out again after lunch to reach our overnight destination. Upon arrival at our overnight accommodation you'll have a chance to order your dinner, and spend the evening reflecting on your day, and enjoying the company of your guides, with a nice hot cuppa around the fire.

## DIETARY REQUIREMENTS

While our packages include the cost of meals, we cannot cater to special dietary needs, as we are staying in hotels and teahouses that are under their own management. However, most diets can be accommodated. The easiest diets to accommodate are vegetarian/vegan, and gluten free (simply by ordering food that meets these needs, and making any requests at the time of ordering). The Nepalese people aim to please their guests, so a courteous request will go a long way!

## ACCOMMODATION ON THE TREK

In Kathmandu you will be staying in 3-star hotel accommodation, generally with wifi and running hot water in your own attached bathroom (always appreciated after a long trek!).

On the trekking trail, we stay in traditional Nepal teahouse accommodation, which has been constructed to cater to the needs of trekkers. Teahouses are usually of a general standard, and can vary, depending on the town/village we stay in, and the time of year we are trekking. They can be made of stone, or they may be constructed more simply. The facilities offered by teahouses varies, and most often the bathroom and toilet are located outside and are a shared facility. Hot water and wifi are charged, and may not always be available, depending on where we are staying.

All accommodation on our treks is twinshare meaning you will generally be sharing a room with one other person (unless you're travelling solo, or in an odd numbered group). Single supplements are also available for those who wish to be guaranteed a room all to themselves.

Please refer to [our website](#) for more information.
